

Hospital service

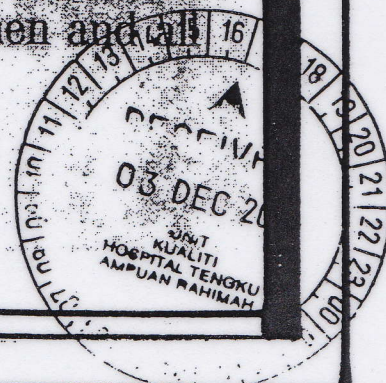

Good work by Klang doctors

NOWADAYS, we often hear comments against government hospitals. I would like to recount my happy experience with Tengku Ampuan Rahimah Hospital, Klang.

In 2004, I spent about RM5,000 at a private hospital for a gynaecological problem. But the problem persisted. I went to HTAR as a last resort but it turned out to be the best move. The doctors there identified my problem in just 24 hours and gave me appropriate treatment.

The staff members were committed and caring. I would like to take this opportunity to thank the gynaecological team, especially Dr Vijayavel, Dr Susila, Dr Malar, Dr Malhi, Dr Fazilah, Dr Anita, all the housemen and all the nurses of Ward 2A.
