

Proud of our medical services

I WOULD like to share my pleasant experience at both a private hospital and public hospital in Klang.

A couple of weeks ago I was admitted in KPJ Klang Specialist Hospital for a gynae surgery which was performed by Dr Vijayavel Vadiveloo, a Gynaecologist & Gynae-Oncologist.

I would like to thank the entire team at KPJ Klang especially Dr Vijayavel for giving much attention and also for the superb service rendered to me during my stay in the hospital.

This includes the clinic assistants, those who were at the admission

registration counter, the operation theatre and the maternity ward.

They were all very polite, helpful at all times and extremely caring. They made me feel very comfortable as if I was at home.

A few days ago when I went to the Klinik Kesihatan Bandar Botanik Klang for a full medical check-up as per my employment requirement.

I was completely surprised to find the staff there to be very helpful and kind to each of us.

Despite being extremely busy, they were so patient, respectful and smiling at all times. This included the doctor, staff at the registration

counter, X-Ray department, wellness clinic, eye clinic and dental clinic.

I would like to thank Dr Menaga Munusamy and the entire team at Klinik Kesihatan Bandar Botanik for facilitating my medical check up without delay. It was much easier and pleasant than I thought it would be.

As a Malaysian, I am very proud to say that medical services in our country has improved tremendously over the years.
